THE IRRIGATED FARMLANDS OF CALIFORNIA

"California" where.

A man, who was, perhaps, just planted by the hands of the explorers on the California Gold Run in the old days.

The windmill on the old California Gold Run.

A well just planted here.

## IRRIGATION IN CENTRAL QUEENSLAND

The sprays working showing how the land is watered.

The engine pumping and its which lifts the water from the river and forces it through the main pipe and sprays.

The Murray River from which the land is irrigated. The water is six miles long and from ten to twelve feet deep.

The main supply pipe running up the bank of the river.

View of the spray pipe, functioning all from the main pipe. (Murray River, Australia.)
